1 Year

Davinci Resolve

EDUCATION

Art Institute of Seattle, Seattle WA

Primary areas of study were Videography and business management, studied for two years before being forced to cease studies due to family concerns.

SELF-STARTER

I have always dreamed of working in the film/video industry I first learned visual effects so I could make goofy videos with friends but that soon turned into a passion that has yet to leave me to this day. I am entirely self-taught and I continue to learn to use new techniques and tools to this day.

LEADERSHIP

Almost all of my professional experience has been working 9-5 jobs but I have excelled in these fields I have chosen to pursue, achieving leadership positions in almost every job I have ever had.
